

UNIVERSITY OF CALIFORNIA

Campus:	San Francisco
Project Name:	Medical Science Building Improvements Phase 2
Project Description:	This is the second of three projects designed to improve and modernize the 50-year old Medical Sciences Building on the San Francisco campus. The building provides instruction and research space for the Schools of Medicine, Dentistry, and Pharmacy. The first project provided fire and life-safety corrections; this second project will provide seismic reinforcement, upgrade the chilled water distribution system, replace obsolete equipment for heating and cooling systems, and modernize heating, ventilation, and air conditioning systems in a portion of the building. The third and final project will complete the building systems improvements and modernize heating, ventilation, and air conditioning systems for the remainder of the building.
