

UNIVERSITY OF CALIFORNIA

Campus:	Statewide
Project Name:	Statewide Telemedicine Services Expansion
Project Description:	This project will further expand telemedicine activities to improve patient access to health care and broaden the systemwide telemedicine program across the state. The project will support UC Telemedicine programs and partnerships with healthcare providers in underserved communities, placing University-owned equipment in community health facilities that lack the resources necessary to support the delivery of telemedicine services. These services would be provided by the Davis, Irvine, Los Angeles, San Diego, and San Francisco campuses.
Phase (2008-09):	Equipment
State Prop 1D Bond Funds (2008-09):	\$10,000,000
Past State Bond Funds:	\$0
Future State Bond Funds:	\$0
Non-State Funds:	\$0
Total Project Budget:	\$10,000,000
Zip Codes:	Various
